

# THE NEURO-SOCIO- DEVELOPMENTAL DISORDERS: AN INTEGRATED APPROACH

A.Y. 2022/2023

*Advanced training course*

TIME FRAME

MARCH-MAY 2023

APPLICATION DEADLINE

02/02/2023

ALMA MATER STUDIORUM  
UNIVERSITÀ DI BOLOGNA

# PRESENTATION & DIRECTION

The aim of the course is to provide useful skills in assessing individual and environmental vulnerability factors to neuro-socio-development disorders, from birth to early adulthood, also providing elements for their diagnosis and treatment.

The main recipients of the proposed training are therefore all those professionals variously involved in the identification and management of such vulnerabilities in any hospital setting or in the Community Mental Health Services: physicians, psychologists, nurses, educators, psychiatric rehabilitation therapists and other healthcare and psychosocial professionals.

The lessons, for a total of 55 hours, will take place from January to February 2023 online on Microsoft Teams.

## **Direction**

Iaria Tarricone, *DIMEC University of Bologna (Director)*

Rita Di Sarro, *Ausl of Bologna (Co-director)*

# LEARNING GOALS

Acquisition of skills and competences relative to:

- assessment of socio-environmental and cultural risk factors for mental health during pregnancy, puerperium, infancy, adolescence, early adulthood;
- recognition and management of main somatic manifestations of mental and social distress in the child, as well as signs of maltreatment, abuse and violence;
- identification and treatment of pervasive developmental disorders, autism, externalizing disorders;
- assessment of cognitive linguistic abilities and learning disorders;
- presentation and treatment of main mental disorders of the early adulthood such as autism and Asperger's, mental states at risk of psychosis, psychotic onset;
- knowledge of the influence of culture and migration history on psychopathology manifestations.
