

JAR-A E-SEMINARS

THE JUDICIAL RESILIENCE PROJECT. VULNERABILITY AND RESILIENCE OF THE THIRD BRANCH

TUESDAY

24th February

2026

1:00 pm

CET time

The Judicial Resilience Project is a Verfassungsblog research initiative on the vulnerability of the German judiciary amid growing pressure from authoritarian populism. The project aims to assess the judiciary's susceptibility to authoritarian strategies, identify key risks and entry points for backsliding, advance underexplored legal and political science research, and raise awareness of judicial vulnerability at both the federal and state levels.

Speaker: Friedrich Zillessen

Project Lead The Judicial Resilience Project, Germany
