Evento su Teams, Ore 14.00

“Full-spectrum flow cytometry: pushing the limits of fluorescence in a fluorochrome limited world”

Speakers: Enrico Ghersi-Cytek Biosciences

Josè Ligos-Cytek Biosciences

About the Company: Cytek Biosciences is the current market leader in the field of *full-spectrum* flow cytometry with more than 1400 flow analyzers and cell sorters installed in the last 5 years, since the release of its first instrument. The Company is listed at Nasdaq and is composed of more than 700 employees fully dedicated to the development and distribution of innovative full-spectrum flow cytometry solutions across the world.
