

Organ-Chip Seminar

Join us for a technical seminar on Organ-on-a-Chip technology

Friday, March 15, 2024
2:00-3:00pm CET

Online seminar: [Fai clic qui per partecipare alla riunione](#)

Emulate is pleased to present an interactive session highlighting the innovative and robust capabilities of Organ-on-a-Chip technology. During this data-driven seminar, Emulate will provide a broad technical overview, showcase several organ models and applications, and host an open forum discussion, where you will have the chance to pose specific questions.

Agenda Topics

- Technology and instrumentation overview
- Organ models and applications developed by both Emulate and its customers
- Intestine-Chip & Immune Cell Recruitment
