

26th March 2021 - 14:00-15:30 CET

## Introducing CytoFLEX SRT Benchtop Cell Sorter

### The New CytoFLEX SRT Benchtop Cell Sorter

We are pleased to share with you our latest innovation from Beckman Coulter Life Sciences, the high performance CytoFLEX SRT Benchtop Cell Sorter.

Built on the same optical features as the CytoFLEX flow cytometer platform, it continues to adhere to the principles that made multicolor applications accessible to many biomedical research and pharma R & D laboratories.

If you need an approachable instrument for sorting multiple populations to generate high quality material for downstream assays, the CytoFLEX SRT benchtop cell sorter is quick to learn and easy to operate. Join us to learn more.

Register now by completing the form to secure your seat.

AGENDA	
14:00	<b>Welcome Address</b> <i>Leonardo Beretta</i> <i>Beckman Coulter Life Sciences</i>
14:15	<b>CytoFLEX SRT - The CytoFLEX that Sorts</b> <i>Jorge Formaro</i> <i>Beckman Coulter Life Sciences</i>
15.15	<b>Questions</b>
