

We are pleased to invite you to our virtual seminar!

Bio-Techne is passionate about providing the innovative solutions you need to achieve success. Join us to learn why more pharma, biotech, and leading research institutions are using our solution to accelerate their research. Specifically, join us to this presentation to meet ELLA!

Ella

Your Next Generation ELISA

Ella's combination of performance and workflow brings your immunoassays to the next level. In just 90 minutes you get highly reproducible validated assay data with no manual steps. The assay performance behind that data includes sub-picogram level sensitivity, 4+ logs of dynamic range and reproducibility that rivals the best laboratory automation. All in a compact package that doesn't break your budget or your lab bench.

ELLA: 10-15 MIN SETUP, 1 HR FOR ANSWERS

Scan barcode

Add samples and
wash buffer

Run cartridge

Speakers:

- Alice Prandi, sales agent Emilia-Romagna (alice.prandi@gmail.com)
- Pasquale Fasanaro, Immunoassay Sales Specialist Italy (pasquale.fasanaro@bio-techne.com)
