

**The power of  
Science for  
coastal  
communities:  
better informed,  
better prepared.**

## Our Partners

The DCC-CR is a Departmental Centre of the University of Bologna and is funded by the Emilia-Romagna Region.

## UN Decade Collaborative Centre for Coastal Resilience

An Action of the UN Decade of  
Ocean Science for Sustainable  
Development

2021  
2030 United Nations Decade  
of Ocean Science  
for Sustainable Development

UN Decade  
Collaborative Centre  
for COASTAL  
RESILIENCE

## Our Mission

The main mission of the DCC-CR is to **strengthen the connection** between the new science and technology developed in the Ocean Decade and coastal stakeholders, implementing innovative **co-design practices** for coastal resilience

## About the UN Ocean Decade

The United Nations Decade of Ocean Science for Sustainable Development 2021-2030 is being coordinated by the Intergovernmental Oceanographic Commission of UNESCO in an effort to **promote transformational, large-scale change** and advance urgent action to move from the 'ocean we have' to the 'ocean we want.'

## Our Strategic Objectives

The DCC-CR will work on catalysing new Decade Actions and supporting the endorsed ones, raising awareness, mobilising resources and monitoring progress. The activities will be organised in four strategic objectives:

- **Improve Science Information for All**
- **Enhance Stakeholder Engagement**
- **Promote Equitable Education**
- **Uphold Environmental Justice for Coastal Communities**

## Join our Community

Sign up to the **Ocean Decade Network** and join the Community of Practice on Coastal Ecosystem & Community Resilience, where you can find a space to debate and exchange best practices about the coastal areas around the world.
